

Program Update

Hot Section Inspection Program

RE: Waiver of Hot Section Inspection Labor

We are temporarily waiving the in-house labor charge for all PT6A Hot Section Inspections.

In an effort to provide support to our customers during the Covid-19 recovery, we want to make it easy for you to carry out your maintenance requirements without being overburdened with additional fees.

As always, we will work to limit your repair cost by repairing (not replacing) parts if possible. If replacement parts are required, they will be quoted using the highest possible discount.

Please contact one of our regional sales representatives to schedule engine work.
